The Director asked all attendees to provide him by the second staff meeting of the new year, a memorandum detailing their views on their component's vulnerabilities, short falls and performance. The Director commented he had met with the Intelligence Community Staff to discuss the annual report to Congress and said he had asked the staff to think about what we could tell ourselves about our capabilities as well as the Congress. []

The Director noted that the Agency was \$18,000 short of its Combined Federal Campaign (CFC) goal and thought that we could have done better. Glerum noted that we did hit 94 percent of our target and that while we did not do as well as we expected, we did better than most other Cabinet-level agencies. In response to the Director's question, Glerum said that supervisors could ask their employees to increase their contributions and added that one of the problems facing the Agency in dealing with the CFC is that the Agency's PSAS campaign is conducted at the same time. Glerum explained to the Director what the PSAS was. []

Referring back to the Director's concerns about leaks, [] noted that the Chairman of the Security Committee had proposed some internal actions to help prevent leaks within the Community. [] said he will meet with the Chairman to discuss further his proposals with a view towards implementing them in the future. []

Childs reported the Continuing Resolution has been sent to the President and will provide funds through 30 September 1983. He initiated a discussion of the implications of the Resolution for CIA. [REDACTED]

25X1

Childs noted the GAO request for a survey of the [REDACTED] program and said that he had provided information developed in 1977-78 to the ICS to help them respond to the GAO. It appears the GAO may have violated the tacit agreement with the Agency in which they agreed not to self-initiate surveys of operations or programs. [REDACTED] plans to raise this issue with appropriate officials. [REDACTED]
